INEPS online meeting in February 2021

Dear members and friends of INEPS,

since the pandemic does not allow planning “physical” meetings yet, we decided to organize a digital one. You are kindly invited on

Thursday, February 18th 2021 at 3 p.m. (e.g. France, Spain, Germany and other countries), 4.p.m (Finland, Lithuania, Greece and other countries)

At first it will be a chance for us to “meet and greet” in the difficult period we are still in. Then the virtual meeting will offer the opportunity to discuss and exchange on topics that “move our heart” in education, e.g.:

- How do we handle the “learning in distance” or “virtual school” in our projects and classes?
- How do we cope with fears, complicated learning situations at home, the “digital barriers” and the many risks we are facing? What is our main concern at this time?
- How do we handle the learning at practice sites, internships, “out of school learning” in the period of “restricted contacts”?
- Are there strategies and ways that showed to be successful and that we would like to share?
- In spite of all the difficulties – are there also chances to grow through this crisis? For the kids, for us, for our learning routines?
